

POLLINATOR HUNT

Pollinators are animals such as butterflies, moths, bees, and hummingbirds that drink the sweet nectar of flowers. As they feed, they carry pollen from one flower to another.

Helpful Things to Take Along

- Pencil or pen
- Scissors
- Rope

Take a walk in your schoolyard or neighborhood. Look for some flowers in bloom. Then fill in the chart below with your observations.

Sketch of flower (Include name if known.)	Describe its color & shape	What kind of pollinators might visit it?	Did you see any pollinators? If yes, what kind?
